EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE SPECIFICATION:

On page 4, line 1, "Detailed Description of the Invention" has been deleted and moved to line 17.

On page 4, line 1, --Brief Description of the Drawings-- has been inserted.

The above changes to the Specification have been had to correct minor informalities in the format.

EXAMINER'S REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The instant application discloses a novel fluid flow actuated drive means and a method of rotating the drive means. Applicant discloses a rotatably mounted impeller which defines a set of circumferentially spaced outer chambers which extend inwardly from openings along a peripheral edge of the impeller and a set of inner chambers which are arranged radially inwards the outer chambers, each outer chamber being connected to a corresponding inner chamber via a passage to facilitate the forming of a Venturi between corresponding inner and outer chambers; a housing which is configured to span the peripheral edge and to inhibit fluid flow out of the openings when the impeller is rotated relative to the housing; an inlet defined in the housing to

permit a jet of gas to be directed at a desired angle relative to the openings when they are in alignment with the inlet to rotate the impeller; and an outlet defined in the housing to permit expulsion of the gas from the chambers when the openings pass and are in momentary alignment with the outlet to further encourage rotation of the impeller.

Prior art references such as Nicola (764,756) and Toth (3,522,703) disclose similar drive means wherein fluid is injected chambers in the tangential direction. None of the prior art, however, discloses a second inner chamber as claimed by Applicant wherein the inner chamber is connected to the outer chamber to form a venture.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
